Ability to trade Australian listed securities across multiple exchanges

Effective immediately, we're introducing new functionality that allows the Authorised broker **to place trades for approved listed securities across multiple exchanges**, including (but not limited to) the Australian Stock Exchange (ASX) and Cboe Australia (CBOE).

Update to the IDPS Guide to accommodate multiple exchanges

As a result of this change, the "Australian listed securities" section on page 6 of the IDPS Guide should be replaced with the below updated content:

"Australian listed securities

Access a selection of approved listed securities (including ordinary shares, property trusts, exchange traded products and listed investment companies) that can be traded on the Australian Securities Exchange (ASX) or such other exchanges as are approved from time to time."

As a result of this change, the "Key information" content for "Australian listed securities" on page 9 of the IDPS Guide should be replaced with the below updated content:

"A wide selection of eligible Australian listed securities that can be transacted on the relevant exchange if you select this Optional Extra."
