A message from the Chair

Looking back at the 2024–2025 financial year

Over the past year, Australians have faced a mix of global economic uncertainty, geopolitical tensions and rising living costs. Understandably, some are feeling concerned about what this means for their future – especially their retirement.

Retirement is a significant life milestone, and achieving a comfortable retirement is something we all aspire to. That's why we're committed to **supporting Australians through every stage of life**, helping weather the ups and downs on the journey to, and through, retirement. Our role is to manage your retirement savings responsibly, transparently, and always in your best interests. We use our scale and expertise to offer advice and financial solutions that are easy to access, engaging and affordable.

My confidence in the superannuation system remains strong. The safeguards and governance frameworks our Fund has in place protect our members, now and into the future. Despite global and economic challenges, we have experienced healthy global share market performance this year, driven by optimism around Artificial Intelligence and easing inflation pressures. Australia's labour market remains resilient, with steady jobs growth and wages rising faster than inflation. These conditions have supported investor confidence and highlight the importance of maintaining a diversified and disciplined investment strategy.

We know that having choice in how your super is invested matters to you. While we provide flexibility, we also recognise the importance of strong governance, which is reflected in the way we manage and oversee our investment menus.

Security remains a top priority. With cyber threats becoming more sophisticated, we have continued to invest in our Cyber Security strategy to protect your data and retirement savings. We are committed to maintaining a secure, compliant and resilient environment that evolves with the digital landscape.

Finally, we continue to enhance support for our members and their advisers. In times of uncertainty, the value of advice cannot be understated.

Looking ahead, we remain focused on helping you achieve your retirement goals. We will continue to enhance our products and services, and protect what matters most – your future.

I look forward to connecting with many of you at the **2025 Annual Members' Meeting**, which will be held in February 2026. You will receive your invitation in December. It is a great opportunity to hear about your fund's performance, our future plans, and to ask questions of the people managing your super.

Investing your money

Trustee's investment objective and strategy

The Trustee's objective is to offer members a diverse and broad range of managed funds, term deposits and ASX listed securities so that a member may be able to, with the assistance of their financial adviser, develop investment strategies for their particular investment goal, risk profile and life stage. The Trustee's investment strategy has regard to:

- **Diversification**

The Trustee considers the level and adequacy of diversification of the investments covered by the strategy in order to meet the needs of members across the full risk profile spectrum.

To ensure a high level of diversification and minimise risks from inadequate diversification, the Trustee makes available a broad range of investments across investment types (direct securities, managed funds, separately managed accounts (SMAs)), asset classes (traditional and alternative), investment managers and investment styles.

- **Liquidity**

The Trustee considers the liquidity of the underlying assets when assessing the investment as part of its selection criteria and reviews liquidity stress testing of the options as performed by an external asset consultant. The Trustee maintains a set minimum of the Fund's assets in cash at all times. This recognises the Trustee's requirements to pay expenses, tax and benefits when they become due and accounting for circumstances beyond its control.

- **Valuation**

The Trustee takes into consideration the reliability of valuation information to ensure members receive accurate unit pricing and returns on their investments. Managed fund unit prices are determined in accordance with each external fund's constitution and are usually calculated each business day by the external fund manager and/or their appointed administrator.

Where the investment option has exposure to certain types of assets for which daily prices are unavailable (e.g. alternatives, private equity or direct/unlisted property and infrastructure), these assets may be valued less frequently.

- **Product Complexity**

The Trustee considers the complexity of products and their suitability to members when assessing investments as part of its selection criteria.

- **Cost and Taxes**

The Trustee reviews the investment costs which may be incurred in relation to the investment option. This includes the size and reasonableness of the overall costs in absolute terms and relative to other investment options on the menu and available in the Australian market, the impact on investment option net performance and on achieving stated investment objectives and the alignment of the investment option fee structure with investment objectives and meeting investors' longer term interests.

The Trustee considers the potential impact of taxes on the performance of the investment as part of its selection criteria.

- **Use of derivatives**

The Trustee considers the potential risk exposure associated with derivatives when assessing investment options and reviews manager derivative usage procedural documents such as Derivative Risk Statements and external audit reports to ensure appropriate use of derivatives.

The Trustee takes into consideration existing and prospective investment liabilities when assessing investment options and its ability to discharge any liabilities and any potential large redemptions. Note that the Fund is not a defined benefit fund, nor is it capital guaranteed.

The Trustee places significant importance on the assessment of investments prior to making them available to investors. The Trustee takes into account the requirements of the *Superannuation Industry (Supervision) Act 1993* (SIS), APRA Prudential Standards, APRA Guidelines, *Corporations Act 2001* and general Trust law for any new managed investments proposed.

The Trustee's key selection criteria and considerations in assessing managed fund investments prior to making them available to investors include:

- the fund must be a registered scheme with ASIC;
- the fund must be open to investment for new and existing members;
- the fund must be managed by a leading investment manager in the appointed asset class and must form part of a strong organisational structure;
- the investment team responsible for managing the fund must be well resourced, experienced and stable;
- the investment manager must have a clear investment philosophy and process for the management of the fund;
- consideration of the fund's valuation policy for the underlying assets;
- there must be clearly identifiable risk factors and sources of return and minimal level of complexity associated with the fund;
- the fund must have favourable
- independent research house ratings;
- the fund must have competitive long term investment performance. Where no long term performance is available, short term performance will be considered along with the portfolio management team's previous track record;
- the fund's liquidity and the liquidity of the underlying investments. Liquidity and stress testing analysis of the fund must have been completed by the investment manager. The analysis should be in line with expectations given the fund strategy and asset allocation.

You can select approved Australian Securities Exchange (ASX) listed securities, term deposits, SMAs or choose from a menu of over 350 managed funds. Specific information (including objectives and strategies) for each individual managed fund can be obtained from the relevant Product Disclosure Statement. The underlying PDS for each investment is available upon request from your financial adviser.

Selecting investment options

When selecting investment options, you need to consider how long you wish to invest your money and the level of risk you are prepared to accept. In general, investments with the potential to earn higher returns (for example, shares) carry the higher risk. Not only may the rate of return go up and down, but the value of your investment (the capital value) can also rise and fall. For investments that generally earn lower returns (for example, cash), the capital value is less likely to fluctuate.

You may change/switch all or part of your existing account balance between investment options. Please note that transaction cost factors may apply upon switching (Switching fees may also apply).

Diversification

Voyage allows you to diversify your superannuation investments by providing access to a wide range of managed investments, term deposits and listed securities.

Diversification is achieved by holding more than one type of investment. Investors are able to achieve diversification using one, or a combination, of the following:

- **holding different assets** – such as shares in different companies
- **investing in different asset classes** – such as shares, property and fixed interest
- **investing with several fund managers** – all with different investment styles.

Depending on how you diversify, underperformance in one area may be offset by positive performance in another.

Detailed information about the current managed investments offered through the Fund is available through your financial adviser.

Investment earnings

Units and shares are allocated to you proportionally according to the size of your investment in the underlying managed investment or listed security. At any time, your investment is equal to the number of units and/or shares you have been allocated, multiplied by the prevailing unit price of the relevant underlying managed investment or relevant share price. The net investment earnings (after deduction of management fees and taxes) are reflected by changes in the unit price, plus distributions, interest and dividends credited to your account. Distributions, interest payments and dividends from the underlying holdings can either be allocated to your Cash Account where they accrue interest, or you can use them for reinvestment.

Derivatives

The Trustee did not directly invest in derivative investments for the year ending 30 June 2025 and it is the policy of the Fund not to invest directly into derivatives. Where the fund does have a holding of derivatives, this may be a result of indirect investments gained through participating in a corporate action.

Managed funds may use derivatives such as futures, options and forward rate agreements. Where derivatives are used depends on the investment strategies of the individual managed investments. Copies of the product disclosure statement for the individual managed investments are available from the Voyage website oasis.wrapinvest.com.au/voyage

Except where specially approved by the investment guidelines for that particular managed fund, derivatives will not be used to gear a managed fund's assets, or for speculative purposes.

Investment reserves

The Fund does not maintain investment reserves.

Asset allocation

The asset allocation information in the table below shows how the Fund, as a whole, and not Voyage as an individual product in the Fund, is invested across the different asset classes.

When you invest into the Fund you can invest in a number of different term deposits, managed funds and approved ASX listed securities. Term deposits are classified as cash and ASX listed securities are classified as Australian shares. Where a managed fund invests across a number of asset classes, we will treat the asset allocation based on a 'look through basis' using the managed fund's individual asset allocations.

Asset	30 June 2025	30 June 2024
Cash	13.9%	14.7%
Australian Fixed interest	8.6%	8.9%
International Fixed Interest	7.8%	8.4%
Property	4.4%	5.0%
Australian Equity	36.9%	33.6%
International Equity	27.4%	28.3%
Other	1.0%	1.1%
Total	100.0%	100.0%

The information in the preceding table has been obtained from fund managers either directly or from a third party and was current at the time this document was prepared. Whilst the external sources of this information are considered reliable, the Trustee and any Insignia Financial Group company cannot guarantee either the accuracy or completeness of the information and do not accept any responsibility for any inaccuracies, errors or omissions.

Investment options that exceeded five percent of the total assets of the Fund

The following investment option exceeds five percent of the total assets of the Fund:

- Cash Account (the central cash account for all transactions into and out of accounts. It is a deposit account held through the Fund's Custodian with Macquarie Bank Limited).

Managed fund Information

The most up to date asset allocation for each of the managed funds is available from your financial adviser.

The asset allocation for each fund that you are invested in is included in the 'Detailed Superannuation Asset Allocation' report that can be accessed in the reporting section of the Online Portal.

For asset allocation information on other funds that you are not invested in, please refer to your financial adviser.

Reserves

Operational Risk Financial Requirement reserve

Under APRA Prudential Standard SPS 114: *Operational Risk Financial Requirement* an Operational Risk Financial Requirement (ORFR) target amount is required to be held.

The financial resources held to meet the ORFR target amount can be held either as:

- an operational risk reserve within the fund;
- operational risk trustee capital held by the RSE licensee; or
- a combination of both

General reserve

The general reserve is for the benefit of members and may be used to recover costs such as project costs and other expenses approved by the Board.

The general reserve represents assets generated from historical events, interest on certain bank accounts and/or processes that are in excess of member liabilities.

These amounts may be allocated to members in future years.

The balance of the general reserve at the end of the last 3 financial years is summarised below:

30 June 2025: \$16.1M

30 June 2024: \$16.5M

30 June 2023: \$13.8M

For details of the balances and movement of the general reserve and other reserves, refer to the 'Statement of Changes in Reserves for the year ended 30 June 2025 table below.

Understanding investment performance

The investment performance of the Fund is determined by reference to the investment performance of the assets of the Fund, and different types of assets will perform differently in different market conditions. In your product, you get to choose the assets (investment options) that your super (and, accordingly, the Fund) is invested in. The investment performance of those investment options is directly allocated to you. You should refer to your annual statement for the year ended 30 June 2025 for details of the investment performance of your chosen investment options.

Alternatively, information on the performance of accessible listed securities and term deposits are available through the Online Portal. Additional information on the performance of all the managed funds available through your product is available from your financial adviser.

Change of personal details

It is important that you stay in touch with us and keep your account active and up to date, so you do not become 'lost', and so we can keep you informed about your investment and pay any benefits directly to you.

Please refer to your Annual Statement and let us know if anything has changed or has not been reported accurately e.g. mobile phone number, address details – both postal and residential, beneficiaries, insurance benefits, Tax File Number, etc.

To update your details, please contact Client Services.

Unclaimed money superannuation members

The Trustee is required to transfer your benefits to the ATO as unclaimed money if all of these circumstances apply:

- you are aged 65 or over
- the Trustee has not received a contribution or rollover for you for two years
- after making reasonable efforts, the Trustee is unable to contact you again, after five years since last contacting you.

Lost member reporting and payments

It is important that you stay in touch with us and keep your account active, so you do not become 'lost'.

You may be classified as a 'lost member' if:

- we have made one or more attempts to send written communications to you at your last known address and we believe on reasonable grounds that you can no longer be contacted at any address known to the fund; and
- you have not contacted us (by written communication or otherwise) within the last 12 months of your membership of the Fund; and
- you have not accessed details about your account online within the last 12 months of your membership of the Fund; and
- we have not received a contribution or rollover from you, or on your behalf, in the last 12 months of your membership of the Fund.

We are required to report a 'lost member's' account to the Australian Taxation Office (ATO). Additionally, we are required to transfer a lost member's account to the ATO if:

- the account balance is less than \$6,000; or
- we are satisfied that it will never be possible, having regard to the information reasonably available to us, to pay an amount to the member.

If your account does become 'lost' and paid to the ATO you will lose any insurance associated with the account, and will need to contact the ATO about payment options.

Special rules for temporary residents

If you're a temporary resident and your visa has expired and you leave Australia permanently, you may be able to claim the superannuation you hold with us as a Departing Australia Superannuation Payment. Withholding taxes may apply to the lump-sum payment. However, if you don't make a claim within six months of your visa expiring or your departure from Australia (whichever happens last), we may be required to transfer your superannuation to the ATO as unclaimed super. In these circumstances, relying on relief from ASIC, we're not required to notify you or give you an exit statement and you'll need to contact the ATO directly to claim your superannuation. For more information go to ato.gov.au

Closing or blocking access to your account

Unless prohibited under Australian law, we may close your account if we think that you haven't used it appropriately or for any other reason we, acting reasonably, consider appropriate. We will not give you prior notice before closing your account if we consider that immediate closure is necessary to protect us or you from suffering financial loss (for example, as a result of suspected fraudulent activity on the account).

Proceeds of crime

Generally, your superannuation benefits may not be cashed or rolled over, where the Trustee must comply with a forfeiture order which allows the proceeds of crime to be recovered from your super.

Enquiries and complaints

We value your feedback regarding our performance and we're committed to resolving any concerns you may have.

Our customer service team is your first point of contact for any enquiries, raising concerns or providing feedback. We will do our best to resolve your concerns genuinely, promptly, fairly and consistently, and keep you informed of the progress.
